Percent Change, Tax, Tip & Interest

Grades 6 – 8 • 50 questions • Show your work

1. A price changes from **\$66** to **\$132**. Find the percent increase. _____
 2. A price changes from **\$70** to **\$77**. Find the percent increase. _____
 3. A price changes from **\$40** to **\$10**. Find the percent decrease. _____
 4. A price changes from **\$45** to **\$54**. Find the percent increase. _____
 5. A price changes from **\$84** to **\$21**. Find the percent decrease. _____
 6. A price changes from **\$15** to **\$30**. Find the percent increase. _____
 7. A price changes from **\$115** to **\$138**. Find the percent increase. _____
 8. A price changes from **\$68** to **\$34**. Find the percent decrease. _____
 9. A price changes from **\$10** to **\$8**. Find the percent decrease. _____
 10. A price changes from **\$26** to **\$52**. Find the percent increase. _____
 11. A price changes from **\$89** to **\$178**. Find the percent increase. _____
 12. A price changes from **\$108** to **\$189**. Find the percent increase. _____
 13. A price changes from **\$10** to **\$11**. Find the percent increase. _____
-

- 14.** A price changes from **\$90** to **\$72**. Find the percent decrease. _____
- 15.** A price changes from **\$30** to **\$27**. Find the percent decrease. _____
- 16.** A price changes from **\$24** to **\$6**. Find the percent decrease. _____
- 17.** A price changes from **\$70** to **\$63**. Find the percent decrease. _____
- 18.** A price changes from **\$70** to **\$35**. Find the percent decrease. _____
- 19.** A price changes from **\$100** to **\$110**. Find the percent increase. _____
- 20.** A price changes from **\$80** to **\$64**. Find the percent decrease. _____
- 21.** A price changes from **\$52** to **\$65**. Find the percent increase. _____
- 22.** A price changes from **\$48** to **\$12**. Find the percent decrease. _____
- 23.** A price changes from **\$60** to **\$45**. Find the percent decrease. _____
- 24.** A price changes from **\$5** to **\$10**. Find the percent increase. _____
- 25.** A price changes from **\$10** to **\$12**. Find the percent increase. _____
- 26.** A price changes from **\$56** to **\$28**. Find the percent decrease. _____
- 27.** A price changes from **\$40** to **\$44**. Find the percent increase. _____
- 28.** A price changes from **\$1** to **\$2**. Find the percent increase. _____
- 29.** A price changes from **\$60** to **\$15**. Find the percent decrease. _____
-

- 30.** A price changes from **\$40** to **\$36**. Find the percent decrease. _____
- 31.** A price changes from **\$20** to **\$18**. Find the percent decrease. _____
- 32.** A price changes from **\$80** to **\$160**. Find the percent increase. _____
- 33.** A price changes from **\$72** to **\$18**. Find the percent decrease. _____
- 34.** A price changes from **\$79** to **\$158**. Find the percent increase. _____
- 35.** A price changes from **\$14** to **\$21**. Find the percent increase. _____
- 36.** A price changes from **\$72** to **\$108**. Find the percent increase. _____
- 37.** A price changes from **\$115** to **\$230**. Find the percent increase. _____
- 38.** A price changes from **\$90** to **\$180**. Find the percent increase. _____
- 39.** A price changes from **\$20** to **\$22**. Find the percent increase. _____
- 40.** A price changes from **\$16** to **\$4**. Find the percent decrease. _____
- 41.** A price changes from **\$78** to **\$39**. Find the percent decrease. _____
- 42.** A price changes from **\$30** to **\$15**. Find the percent decrease. _____
- 43.** A price changes from **\$28** to **\$7**. Find the percent decrease. _____
- 44.** A price changes from **\$8** to **\$2**. Find the percent decrease. _____
- 45.** A price changes from **\$94** to **\$141**. Find the percent increase. _____
-

- 46.** A price changes from **\$7** to **\$14**. Find the percent increase. _____
- 47.** A price changes from **\$12** to **\$21**. Find the percent increase. _____
- 48.** A price changes from **\$50** to **\$55**. Find the percent increase. _____
- 49.** A price changes from **\$80** to **\$72**. Find the percent decrease. _____
- 50.** A price changes from **\$10** to **\$20**. Find the percent increase. _____
-
